## About me

---

I am a final-year student at St. Joseph's College of Engineering, with strong hands-on experience in front-end development using HTML, CSS, JavaScript, and React. I have also worked with Java and enjoy building user-friendly, interactive web applications. I am a self-motivated and enthusiastic learner with excellent communication skills, eager to contribute and grow in a dynamic work environment. Currently, I am seeking an opportunity to start my career and apply my skills to real-world projects.

## Education

---

**Amrita Vishwa Vidyapeetham, Coimbatore**

*Sep 2026 – Present*

*M.Tech, Computer Science and Engineering*

- Currently pursuing 1st year, 1st semester

**St josephs college of engineering**

*Nov 2022 – Mar 2026*

*Btech information technology*

- CGPA:7.51
- **Coursework:** operating system,database management system,networking,java,c,python

## Experience

---

**Software Engineer Intern**

*beauroi, chennai*

*Beauroi technologies*

*June 1 – july 1 2025*

*Front-End Developer Intern*

I developed responsive user interfaces using HTML, CSS, JavaScript, and React, ensuring cross-browser compatibility while collaborating with team members to design and implement key features for live projects. I improved component reusability and optimized performance through efficient state management, and participated in offline development sessions to gain practical experience in real-world project workflows. Additionally, I assisted in debugging, testing, and deploying front-end modules within tight deadlines.

## Projects

---

**Microplastic Detection using Deep Learning**

- Built a computer vision model in Python and PyTorch using Ultralytics YOLOv8 and YOLOv11 to detect and classify microplastics in images.
- Tools Used: Python, PyTorch, Ultralytics YOLO, Computer Vision

**SmartCity AI – Intelligent Civic Issue Reporting Portal**

- Developed a role-based Smart City web portal enabling citizens to report civic issues and authorities to track and resolve them efficiently.

**Stock market prediction**

- Developed a modern, real-time stock market analytics dashboard to visualize stock trends, price movements, and market sentiment.
- Tools Used: HTML5, Tailwind CSS, JavaScript

## Skills

---

**Languages:** java,html,css,javascript,react,machine learning ,deep learning
